

The following is the coordinated schedule for the public hearings by the Joint Review Panel and the National Energy Board for the proposed Mackenzie Gas Project. This schedule was developed through input to the Joint Review Panel and the National Energy Board on their respective review processes. Specific Panel hearing schedules can be accessed directly through their offices. Details on the venues and hearing times will be released at a later date. For more information, contact the Northern Gas Project Secretariat in Yellowknife toll-free at 1-866-372-8600 or on the Internet at www.ngps.nt.ca.

Following the completion of the public hearings by the Joint Review Panel (JRP), the JRP will write its report and submit it to the federal government. The report and the response by government will be filed with the National Energy Board, which will reconvene its hearing for final argument.

If the proposed project were to proceed, applicants would require specific licenses and permits from northern regulatory boards – the Mackenzie Valley Land and Water Board and the Northwest Territories Water Board. Each of these boards has mandatory public hearing requirements, depending on the type of license or permit sought. Any hearing that may be scheduled by these boards would be widely advertised.
